Delphi Display Systems Releases Next Generation Drive-Thru Timing System

Costa Mesa, CA, October 1, 2020 - Delphi Display Systems, Inc. – the global leader in consumer engagement and business optimization technology solutions for the food service industry, announced today that they have released their next generation drive-thru timing system Insight Track® 2.0. Key features and enhancements include:

- Enhanced real time performance dashboards now available on any web enabled device.
- New enterprise level performance summary reports are now available through the Delphi Cloud portal.
- Daily performance reports can also be automatically sent via email to any group of recipients.
- Significant upgrades to the Insight Score™ real time performance ranking dashboard with a much improved, intuitive and configurable user interface.
- Upgraded operating system to the latest long-term supported version.
- Release of the latest generation of IoT timer interfaces that provides connectivity to all in-store sensors, headset systems and other peripheral equipment.
- Enhanced RESTful APIs for integration into customer reporting systems.

These improvements provide customers with the information they need to improve the efficiency and profitability of their drive thru operations. Insight Track 2.0 is now available and is shipping with all new timer systems.

"Delphi has been instrumental in helping Havana Savannah's Coffeehouse, develop our first flagship, Wall Street funded concept," said Bruce Burrows, CEO. "From installation to start up, Delphi has been there to assist. As such, all future franchised stores shall be specified with Delphi technology."

"This new release of Insight Track allows our customers the ability to get more visibility into their drive-thru operations and identify performance bottle necks in real time," said Ken Neeld, President and CEO of Delphi Display Systems. "With the increased utilization of drive-thru lanes as a result of the COVID-19 pandemic, it is more critical than ever for our customers to reduce speed of service times, improve profitability and drive customer satisfaction and loyalty. Insight Track 2.0 will help them achieve these results."

About Delphi
